P. O. Box 136  
Wellington, Utah 84501

Dear Mr. Marston:

Re: Follow-up on Site Inspection and Resolution of NonCompliance Notice,  
M/015/062, Emery County, Utah

I visited the Pagano Clay Project, November 30, 1992 with Mr. Hank Reguloski to review the site prior to reseedling. This letter discusses some of the outstanding items, which still require resolution prior to the December 18, 1992 deadline.

During our site inspection, I pointed out to Mr. Reguloski one portion of the site which will need to be ripped/scarified and seeded. This area is described in the enclosed memo. This area was included in our original 17 acre estimate. Reclaiming this area should not preclude the road access, that you originally requested be left into this area. Another road exists above this one, which can be left.

I spoke to Mr. Bill Warmick of Water Rights concerning the area along the Price River, which had been disturbed. He indicated that Water Rights was satisfied with the work performed by East Carbon Constructors. We also agreed that waiting until spring for willow-cutting planting could provide for better success than planting this winter.

I also need to remind you that the Division still needs the \$3,700 surety established in our November 13, 1992 letter. All reclamation should be complete, by this date too, except for the willow plantings. Please notify us promptly if you feel you will not be able to meet this time frame.
